WHEELING PLAYERS REPORTING.

Four of the Nallers of '98 Arrived in Town Last Night.

The Nallers of 1898 are now reporting, and before another day has passed the entire team will be doing preliminary practice on the bridge park over on the Island. Pitcher Madden has been in town several days, and the players who reported last night are Eggart, Horan, Brenitt and Machin. They came in from northwestern Ohio, and are quartered with Manager Starr at the Hotel Main, in Bridgeport, where the players are to be boarded during the season. Minter, Morris and Wilson will come in from Pittsburgh to-day.

The youngsters who arrived last evening are likely looking fellows, and their work last season makes it assured that they will form the nucleus of a very strong team for Wheeling this season. Practice will begin this morning on the bridge park and will be continued, morning and afternoon, through the week.

BOXING.

Oscar Gardner and Jack McClelland are two men the Metropolitan's patrons would like to see come together in the Fulton arena, and no greater drawing card could be provided. The former has written here from Columbus, and says that he had intended bidding the ring a farewell, but he incurred so much expense in securing his acquittal from an indictment of manslaughter, the outcome of his regretted encounter with the late George Stout, that he is anxious to get on a match at an early date. He writes that he will meet Charlie Burns or Eugene Bezenah, at any weight, or any man in the world at 115 to 122 pounds. The club thinks the latter weight will induce Jack McClelland, the Pittsburgh crack, and as Jack recently has indicated a desire to meet Gardner the match may be arranged. McClelland is a clever boy, and this would be a chance for him to try a top knocker.

The "Mets" have failed to receive any reply from the ring articles written to in reference to a match with Charlie Johnson, and they are coming to the

Help for the Hair

is what a great many men and women are looking for; help against approaching baldness; help against whitening locks; help to restore the lost gloss to the hair; help against fading tresses; help for the scalp attacked by dandruff. AYER'S HAIR VIGOR offers just such help. It restores gray or faded hair to its original color, gives it length, thickness and gloss, and removes dandruff.

"My hair was rough and broken and began to fall out. The use of one bottle of AYER'S HAIR VIGOR both checked the falling out and rendered my hair smooth, glossy and in splendid condition. It is the best of restoratives."—Mrs. F. L. SMITH, Silver Creek, Wis.

Joe Walcott flunked out from Johnson in their match, so Tommy Tracy has been substituted, and the meets Johnson at Athens, Pa., May 8.

The Metropolitan club is hoping to complete a deal whereby Leslie Pearce will be the club's manager. The club last fall tried to get an expert to act as manager and matchmaker, and Pearce would do the job to a tee.

The old-fashioned watchman who prowled about the streets of medieval London, with a lantern in his hand to proclaim his coming, and who announced his passage through the streets by shouting "All's well," was a very inefficient member of the police force compared with the metropolitan police of New York City, commonly known as the "beatmen."

modern policeman does not proclaim his coming to the evil doer by shouting or by carrying a lantern. He does his work more quietly and effectively than the old-fashioned town watchman.

It is thus that in all the walks of life and in all occupations, time change, knowledge and efficiency increase. In this respect medical science has kept pace with the advance in other lines. Physicians and chemists have grown rapidly more skillful. There are medicinal preparations now-a-days that cure diseases that were a few years ago considered absolutely incurable. The final triumph in this respect is Dr. Pierce's Golden Medical Discovery. It was first given to the world thirty years ago, and has stood the test ever since that time. It cures 93 per cent. of all cases of consumption, bronchitis, throat and kindred affections. Thousands who were hopeless sufferers, and had been given up by the doctors, have testified to its marvelous merits. It is the great blood-maker and flesh-builder. It makes the appetite hearty, the digestion and assimilation perfect, the liver active, the blood pure and rich with the life-giving elements of the food, and the nerves strong and steady. It acts directly on the lungs and air-passages, driving out all impurities and disease germs. An honest dealer will not try to persuade you to take an inferior substitute for the sake of a few pennies added profit.

Dr. Pierce's Pleasant Pellets cure constipation. At all medicine stores.

WEST VIRGINIA TROOPS.

At Camp Lee—Change Made in Arrangement of Companies to Obviate "Jealousies"—Patrols not so Plenty as They Were.

Special Dispatch to the Intelligencer.

CHARLESTON, W. Va., May 2.—To-day a change was made in the battalion corps, at Camp Lee, in order that the two companies from each regiment might be able to be placed. The arrangement now is for companies A, D, F and H to form the first battalion, which will be commanded by Lieutenant Colonel Smith, companies E, I, K and L will form the second battalion under Major Banks, and B, C, G, and M the third, commanded by Major Shaffer. This arrangement will obviate jealousies which might have arisen between the two regiments.

Governor Atkinson to-day formally issued orders commissioning all the officers agreed upon when the volunteer regiment was formed from the two National Guard regiments.

This morning Colonel Spillman had the camp laid out for the battalion formation and the men spent the entire day moving and putting up the tents to conform to the plan mapped out. The enthusiasm for joining the army which has prevailed since the beginning of the trouble seems to have subsided, and if present indications do not fail it may require weeks to fill up the regiment to the required number. The officers from the various localities where the companies were formed estimate the number who will volunteer as follows: Moundsville, 100; Elkins, 50; Piedmont, 50; Sistersville, 75; Morgantown and Fairmont, 50; Martinsburg, 100; Huntington, 100; Parkersburg, 100; Hinton, 50; Bluefield, 50; Point Pleasant and other Ohio river towns, 50.

The recruiting officers at Hinton after five days' work reported only five volunteers, while fifty were claimed for this town. The signal corps has joined in a body and will be transferred to the Bluefield company.

The Old Story.

AMSTERDAM, N. Y., May 1.—This evening while the forty-six separate company was making preparations to leave for Hempstead to-morrow George De Graft was shot and killed by a revolver in the hands of a companion, Wilbur Jerusalem. De Graft was seventeen years old, and son of Dr. Emanuel E. De Graft, of New York City.
